

Assignment – 1

Question : Create one form with input and apply css

HTML CODE :

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta http-equiv="X-UA-Compatible" content="IE=edge">
  <meta name="viewport" content="width=device-width, initial-
scale=1.0">
  <title>Registration Form</title>
  <link rel="stylesheet" href="form.css">
</head>
<body>
  <div class="form">
    <!-- Name : N.Mithun Chowdary Regd no : 20BCE0517 -->
    <h1 class="titlef">Registration</h1>
    <form action="#">
      <div class="persondetails">
        <div class="user">
          <label for="Full Name">Full Name</label>
          <input type="text" name="Full Name" id="Full
Name" placeholder="Enter your full name">
        </div>
        <div class="user">
          <label for="UserName">UserName</label>
          <input type="text" name="UserName" id="UserName"
placeholder="Enter Username">
        </div>
        <div class="user">
          <label for="Email">Email</label>
          <input type="email" name="Email" id="Email"
placeholder="Enter your mail">
        </div>
        <div class="user">
          <label for="PhoneNumber">PhoneNumber</label>
          <input type="number" name="PhoneNumber"
id="PhoneNumber" placeholder="Enter your phonenumber">
        </div>
      </div>
    </form>
  </div>
</body>
</html>
```

```

        <div class="user">
            <label for="Password">Password</label>
            <input type="password" name="Password"
id="Password" placeholder="Enter password">
        </div>
        <div class="user">
            <label for="Check Password">Check
Password</label>
            <input type="password" name="Check Password"
id="Check Password" placeholder="re enter password">
        </div>
        <!-- <div class="user">
            <label for="Experience">Experience</label>
            <input type="number" name="Experience"
id="Experience">
        </div> -->
        <div class="gend">
            <label for="Gender">Gender</label>
            <input type="radio" name="Gender" id="male">
            <label for="male">Male</label>
            <input type="radio" name="Gender" id="Female">
            <label for="Female">Female</label>
            <input type="radio" name="Gender" id="others">
            <label for="others">others</label>
        </div>
        <div class="submit-btn">
            <input type="submit" value="Register">
        </div>
    </div>
</form>
</div>
</body>
</html>

```

CSS CODE :

```

*{
    padding: 0;
    margin: 0;
    box-sizing: border-box;

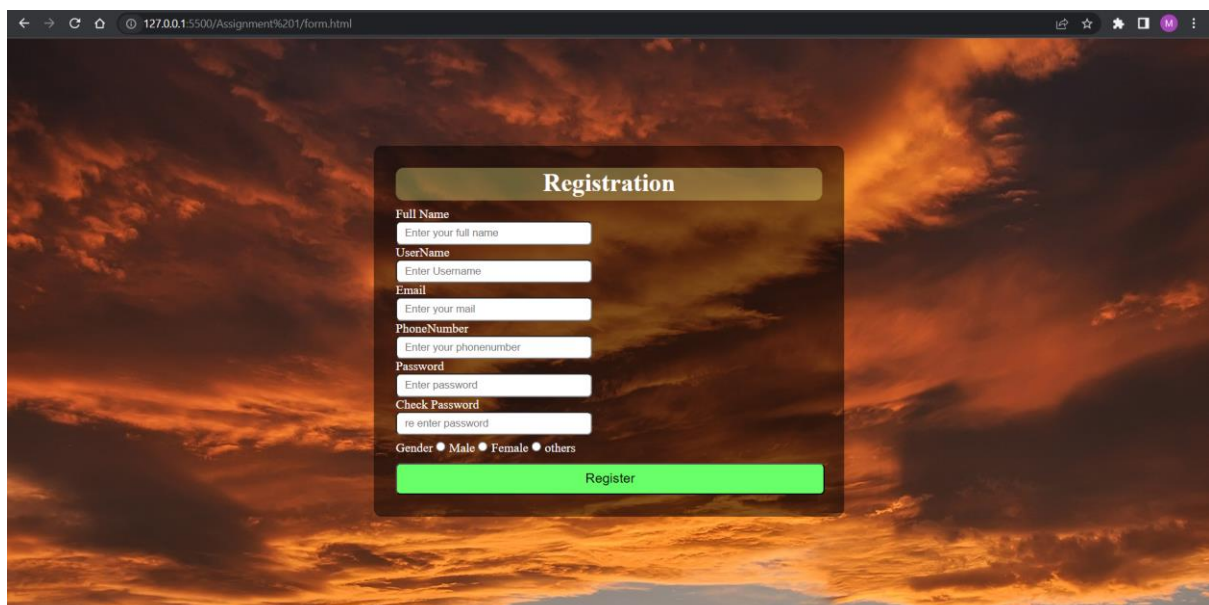

```

```
    /* background-size: cover; */
}
body{
    display: flex;
    height: 100vh;
    justify-content: center;
